MRI ANALYTIX

SPENDING LESS TIME GATHERING AND MORE TIME UNDERSTANDING YOUR DATA.

MRI AnalytiX Portal is a centralized and flexible business intelligence platform that enables clients to effectively explore and understand their data to make better, more knowledgeable decisions and inform key stakeholders in actionable and impactful ways.

OVERVIEW

Clients with large amounts of data want easy access to actionable analytics beyond their financials. With MRI AnalytiX Portal, clients are able to make quick, precise decisions on all types of data by creating and deploying information to decision makers.

MRI AnalytiX Portal enables users to disseminate reports to a much broader audience, with reporting capabilities accessible from any supported mobile device.

Users have more flexibility and more power to access the data they need, with custom reporting and dashboards powered by self-service capabilities and robust data stores.
