

# Reporting and Analytics AnalytiX Portal

# Turn your data into smarter business decisions

#### Solution Overview

Real estate organizations need to stay competitive in a tougher, ever-changing environment. Your firm needs to analyze data beyond your financial details. MRI AnalytiX Portal empowers your real estate organization to transform data into actionable insights. With mobile access to powerful visual analytics, dashboards, ad hoc analyses and collaboration tools, AnalytiX Portal enables you to effectively explore and understand your data. Make better, smarter decisions across your entire organization.

### **Key Features**

- The only industry solution that integrates with MRI systems
- Support for all real estate data and sources, including non-financial and custom information
- Centralized, secure, and optimized for mobile access
- Multiple dimensions of interactive data discovery, such as asset performance, financial trends, outliers and other economic indicators
- Self-service visualizations, analytics and ad hoc querying
- Standard library of on-demand, executivelevel interactive dashboards and reports
- Built on industry-leading data visualization software Tableau

## **Business Benefits**

- Answer business questions faster with instant insight into performance, trends, outliers and other indicators
- Make better informed decisions through data filters, interaction and exploration
- Uncover new business opportunities with attribution and exposure analysis
- Move your decision makers from reactive management to proactive planning with interactive and collaborative dashboards
