

# The Museum of Modern Art

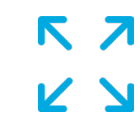

## MoMA

### PROJECT TYPE

Major Renovation, Ground-up Construction; Facilities Upgrades

### SIZE

744,000 square feet

## Working with the Museum of Modern Art in NYC

“

Prior to Northspyre, I was wondering if I should add staff - **how do I get myself out from underwater?** I was behind... I had to do a lot of legwork in Excel and gather files before sitting down with my architect or contractor to negotiate. **Someone in my role has to come with data.** ”

**Jean Savitsky**

Director  
Real Estate Expansion  
Museum of Modern Art  
New York City

### FRUSTRATIONS BEFORE NORTHSPYRE

- ❌ Data from over 250 different vendors + suppliers spread across complex spreadsheets.
- ❌ Difficulty keeping spreadsheets in-sync and up-to-date with the most current information.
- ❌ Lack of data accessibility slowed quick decision-making on urgent, complex challenges.

### SUCCESSSES WITH NORTHSPYRE

- ✅ Eliminated data entry + uploaded more than 3,000 invoice transactions in less than 8 days.
- ✅ Cut cost tracking from a week-long process to less than 2 days.
- ✅ Increased visibility across the project's costs + operations.
- ✅ Project is currently wrapping up under budget.
